

Primary Sport Funding Report 2018-19

What has the funding been spent on - a breakdown?

Spent on	Impact	Child Comments
Ormiston Bushfield Academy Partnership £1,000	This allows for children to access facilities and equipment at OBA. Children are also able to take part in a large number of sporting competitions and opportunities.	<p>"I like competing against other schools when we go to Bushfield", Year 6 boy.</p> <p>"Rowing was brilliant as we don't normally get to do this at school", Year 5 girl.</p>
Sports Equipment £6,222.77	This year we developed new sports within our curriculum. These sports included lacrosse, archery, fencing and badminton. We purchased the equipment for these sports and ran after school clubs, as well as curriculum lessons. Additionally, we purchased new football goals to allow for two full pitches to be used in lessons, clubs and competitive fixtures. This increased the amount of children able to participate at a time.	<p>"The new equipment means we can do a lot more sport at lunch time and after school", Year 4 girl.</p> <p>"I have never stayed to take part in a club before but I love badminton", Year 5 girl.</p>
Out of School Sport £2,410	This year we aimed to engage children in some alternative sports outside of school. This involved the Year 3's taking part in 6 weeks of golf at Thorpe Wood Golf Course, and the Year 4's taking part in 6 weeks of Rock Climbing at the Peterborough Climbing Wall.	<p>"I really liked rock climbing because it gave me a chance to be really brave", Year 4 girl.</p> <p>"When we went to golf, it was amazing because we learnt how to control our power and how much we need to perform a golf swing", Year 3 boy.</p>
Transport £2,679	Transport funding enabled more children the opportunity to take part in a wider variety of inter-school sporting competitions, as well as out of school sporting opportunities.	<p>"It was brilliant going out of school for PE, I felt like a really sportsman", Year 5 boy.</p> <p>"I really like going out of school to play against other schools", Year 4 girl.</p>

<p>Hockey Coach – Nathan Foad £575</p>	<p>Children were encouraged further into the sport of Hockey. Nathan was able to provide a wide range of hockey activities for the children to develop. Younger children were introduced to the basic skills of hockey, while the older more able children developed new tactical understanding. All of these actions have had a visible impact on the enthusiasm and effort levels of all children in Hockey. Additionally we managed to finish 1st in the Orton Hockey Tournament. The additional coaching has had some impact on aiding this success. Finally Year 5 took part in a 6 week coaching programme at the City of Peterborough Hockey Club.</p>	<p>“Playing hockey is brilliant and I really enjoyed going to the hockey club to play”, Year 5 boy.</p> <p>“Hockey is really fun!” Year 2 girl.</p>
<p>Tennis Coaches - City of Peterborough £1,626</p>	<p>Throughout the week beginning 20th May we had two tennis weeks in school with coaches from the COP tennis club in school. The coaches delivered 2 lessons for each class, each week. The weeks culminated in a tennis house competition for children in Year 3-6. Finally to extend the impact one of the coaches worked with Year 4 for the 6 weeks during Spring Term 2, before working with Year 3 during Summer Term 2.</p>	<p>“My favourite part was learning how to rally and I have managed to learn how to hit the ball well”, Year 4 boy.</p> <p>“Working with Max helped me to have the confidence in our tournament”, Year 6 girl.</p>
<p>Chance to Shine Cricket – Platinum Package £100</p>	<p>Within this package we will be receiving 24 hours of specialist cricket coaching from a chance to shine coach. This took place in Reception, Year 4, Year 5 and Year 6. Also within this cost is the entry fee for 4 different cricket competitions which will allow for high numbers of participation in inter-school cricket, to further enable our success under the Kitemark Platinum.</p>	<p>“Doing cricket with Natalie was brilliant, now I play outside of school too”, Year 6 girl.</p> <p>“I got so much better at cricket by working with Natalie”, Year 4 girl.</p>
<p>Outdoor Education Company £3,120</p>	<p>During Sport Week 2019 we invited in the Outdoor Education Company into school. Within this they led adventurous activities with all</p>	<p>“It felt amazing when I conquered the wall”, Year 4 boy.</p>

	classes within school covering the OAA section of the National Curriculum. The activities were Rock Climbing, Mini Golf, Laser Tag and Aeroball.	"I really liked hitting the ball in the hole during golf", Reception girl.
Total Allocated = £17,650. Total Spent = £17,732.77		

What was impact of the sports person in school?

Each of the different coaches that we have had in school has had a different impact on the children during their time in school.

The City of Peterborough Tennis Coaches provided the greatest inspiration to the children with a real international role model for children to aspire too. They especially engaged the gifted and talented pupils who gained a new found belief in their own abilities through participation in the house competition and inter-school competition.

Nathan (hockey) had a very good tactical impact on the children and taught them to think about the games they were taking part in. This can still be seen in the children who are very tactically aware and try to plan out their success within sporting situations.

Natalie (cricket) managed to have great success in engaging all age groups into cricket. This has allowed us to compete in Peterborough competitions for all age groups this year, where we have had great successes, especially for the Year 5/6 Girls Team who finished 3rd in the Peterborough Cricket Tournament and came 6th in the County Finals. Additionally to this, our Year 4 Cricket Team took part in the Rapid Fire Threes County Final and finished in 1st place, becoming County Champions.

What has the whole year club uptake been?

Term 1 = 59 boys, 54 girls = 113 pupils → 59% of whole school. Of which 38% are FSM.

Term 2 = 60 boys, 53 girls = 113 pupils → 59% of whole school. Of which 35% are FSM.

Term 3 = 58 boys, 54 girls = 112 pupils → 58% of whole school. Of which 39% are FSM.

For this year: 83% of Key Stage 2 children have attended clubs. Of which 40% are FSM.

77% of Key Stage 1 children have attended clubs. Of which 39% are FSM.

80% of all children have attended clubs. Of which 40% are FSM.

Did the coaches/sports stars presence improve uptake that week or extend it to different age groups?

During the time that each of the sports coaches were present in school the percentage of children having the correct kit was very high, which enabled the children to take part in the sessions.

Through the assistance of the coaches more sports have been accessed by Key Stage 1 children, especially cricket and tennis. Additionally, through our link with City of Peterborough Hockey Club we now have a good number of children participating in hockey outside of school.

How has all of this helped the children to develop their skills and fitness levels?

Nathan Foad (Hockey) employed an approach where he aimed to improve the basic skills of key stage 1 children and the tactical awareness of the key stage 2 children. This was achieved through conditioned games of hockey that were able to be inclusive for all.

The City of Peterborough Tennis Coaches vastly improved the technical ability of our children within tennis, as well as their hand eye coordination. They are now able to hold a fully rally with a partner from Year 3 upwards, while children in Key Stage 1 and Reception are able to perform modified rallies. This has in turn given all children a better understanding of how the sport of tennis is played. Additionally to this our Year 5/6 Tennis Team finished in 1st place in the Orton Tennis Tournament.

Natalie (cricket) focused on giving the children large opportunities for gameplay within cricket. While in school she delivered sessions for Year 1, Year 4 and Year 6. Her coaching may have helped our Year 5/6 Girls Cricket team to finish 3rd in the Peterborough Kwik Cricket Competition, which enabled us to qualify for the County Finals where we finished in 6th position. The Year 4 team were also incredibly successful, as they finished in 1st place in their County final and they are now County Champions.

What have we learnt/could improve in a positive way?

I feel that the focused coaching weeks in school were very successful for the inspiration of children, especially when these run alongside the delivery of these sports in PE lessons. In order to keep this inspiration running it is essential that there is enough time dedicated to these sports both before and after the coach has been in school. Therefore, it is very important that in future we ensure that the coaches coming into school are spread out over the course of the year.

Throughout the year we have ran our own intra-sport house competitions for all of the sports that the coaches have come in to deliver. This allowed children to apply their skills in competitive situations against other children, as well as gaining an understanding of competitive sport. I feel that this is crucial in order to make sporting competition more accessible for more children in school, who may not gain this in inter-school competitions. This year to build on the experience of these competitions the winning children have been presented with medals, which has increased their positive association with the sport. Additionally through working with Natalie (cricket) to learn a new range of fielding and bowling practices for key stage 2 cricket lessons, which has improved our children's skills while allowing staff to learn more practices to be delivered in future.

Next year we will be looking to provide our children with a wider range of sports. This will be achieved by taking our Key Stage 2 classes out of school to experience sports than cannot be facilitated within school. These sports will be golf, rock climbing, water sports and skiing. Throughout the whole year our PE provision alongside all of the different aspects that we have used the sports funding for it has helped us to gain the Platinum School Games Mark, which is a nationally recognised accreditation for excellent provision of school sport.

What have staff members learnt by working alongside coaches?

While the coaches have been in school we have learnt various different skills and concepts about the sports.

Through observing Nathan (hockey) delivering his sessions we have seen how control over the hockey stick can be introduced to younger children to ease the development into the full game.

While working with the tennis coaches we have learnt far more progressions, which can be used in the teaching of tennis. Alongside this we have learnt how tennis can be facilitated further for reception and key stage 1 children, so that they can access this difficult sport.

Through this new learning this has enabled an extended programme of study in tennis for these classes improving their hand eye coordination greatly.

Finally through working alongside Natalie (cricket) many of the teaching assistants in school have managed to extend their understanding in cricket. This in turn has enabled them to assist more within PE lessons to further develop the children's understanding and technical and ability.
